# Recycling Guidelines for Multi-Family Housing Properties

**The landlord or agent is responsible for setting up a convenient location for the collection and storage of all recyclables.**

Clearly marked recycling containers must be set out for tenants' recyclables. The landlord or agent is to make arrangements for the materials to be delivered to a recycling facility. A code enforcement officer will verify that a recycling system exists during annual inspections.

**Methods of removal of recyclables:**

Landlord or agent may deliver the recyclables directly to a Recycling Center.

Landlord may contract with a private hauler for the removal of recyclables or owners may elect to have recyclable materials collected curbside by the Town. Should this method be chosen, the owner would be subject to the same recycling fee for each dwelling unit as those
