

PANGO PARKING APP INFORMATION

- Citizens will now have the opportunity to download the free Pango Parking App and pay to park using your credit card, Pay Pal, Venmo or the Pango Wallet. There will be a 16 % convenience fee to use the App. (ex. If meter is .25 / 1 hour, convenience fee .04).
- You will need to download the Pango App from your phone's app store or set up an account with Pango at www.mypango.com.
- Set up account. Enter a Payment Method. You can choose Credit /Debit Card, Pay Pal or Venmo, or set up the Pango Wallet. You will have to keep a balance of a certain amount if you choose to use the Pango wallet. You do not have to use the wallet. Credit card options are at the top of the screen.
- You will be notified by email when your session is close to ending. If you want notifications to show up on your phone you must go into your phone's settings and enable the Pango App to allow notifications and which ones you would like. They will NOT text you unless you sign up for a monthly fee.
- A Pay-by-Phone credit card option is available if you do not have a smart phone.
- If you drive multiple vehicles you can add them all in your account. You must be careful to choose the correct plate you are driving that day since all enforcement is done by the plate number. Some parking tickets will have a new look as we print from the enforcement unit.
- Signs will be located throughout town to notify you in which Pango Zone you are parked. There will be 14 Zones throughout Bloomsburg. Two are up near Bloomsburg University on E 2nd St and E 4th St. Since the app is based on location, each zone name has to be unique. See the complete list below. There are stickers on every meter telling you what zone you are in as well.
- When you open the App you will see a red parking meter. Move that to the area where you want park and once it touches the highlighted area the zone should automatically come up. Enlarge the map to make it easier. When you choose the zone, you will see all enforcement information and costs. When you click on START the time choices come up.
- You will be able to add time from a remote location as long as it does not exceed any restrictions in that zone.
- Meters will remain as a coin choice at many spaces. You do not have to pay the meter if you choose to use the App. If you do not use the App you must park and pay at a meter.
- App Parking is only for designated metered spots in the municipal lots. Pango is not to be used in the Zone Permit Only areas. You must have a Downtown Parking Zone to park in the zone permit areas.
