INDEPENDENT AUDITOR'S REPORT

Members of Town Council
Town of Bloomsburg
Bloomsburg, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activity, the discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Bloomsburg, Pennsylvania as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial positions of the governmental activities, the business-type activity, the discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Bloomsburg, as of December 31, 2018, and the respective changes in financial positions, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As disclosed in Note 1, to the financial statements, as of January 1, 2018, the Town of Bloomsburg adopted the provisions of Governmental Accounting Standards Boards (“GASB”) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The Town of Bloomsburg expanded its note disclosures and required supplementary information related to its other post-employment benefits plans. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management’s Discussion and Analysis on pages 4 through 9, and the required supplementary information as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Bloomsburg's basic financial statements. The Combining and Individual Fund Statements, listed in the Table of Contents as supplementary information, are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is also not a required part of the basic financial statements.

The Combining and Individual Fund Statements listed in the Table of Contents as supplementary information, and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Statements, listed in the Table of Contents as supplementary information, and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*; we have also issued our report dated April 12, 2019, on our consideration of the Town of Bloomsburg's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Bloomsburg's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Bloomsburg's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following Management's Discussion and Analysis (MD&A) is intended to help the reader understand the Town of Bloomsburg, its operations and its present environment. The MD&A is provided as a supplement to and should be read in conjunction with the financial statements. This analytical overview of the Town's financial activities is comprised of the government-wide financial statements, fund financial statements, and notes to the financial statements. We hope this, in conjunction with additional information provided within the financial statements, will assist readers in identifying significant issues and changes in the Town's financial position.

General

The Town of Bloomsburg is a small historic town located within Columbia County and is home to just over 14,000 residents. Bloomsburg is the County seat and is considered the only incorporated "town" in Pennsylvania. This incorporation took place on March 4, 1870. The Town is located along Route 11 and is less than five minutes from two exits of Interstate 80 making Bloomsburg a hub of activity for residents and visitors.

Strategic Imperatives

The following strategic imperatives will be the focus of the Town to attempt to ensure the success in the coming years:

- A review of the fixed asset listing is needed to update the records for the Town of Bloomsburg.
- Continued effort to minimize flooding impacts in Bloomsburg to our businesses, residents and infrastructure.
- Ensuring proper street lighting, sidewalks and paved roads are in place for public use.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components: 1) government - wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

1) Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private business. The government-wide financial statements include a *statement of net position* and a *statement of activities*.

- The *statement of net position* presents information on the Town's entire assets and liabilities, with the difference between the two reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

- The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of these financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*) and activities from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*).

- The *governmental activities* of the Town include education, general government, public safety, public works, code enforcement, economic development and recreation.
- The *business-type activity* of the Town includes the Recycling Center.

Also included in the statements are the component units of the Town. Component units are described as an organization that raises and holds economic resources for the direct benefit of a governmental unit. Components units of the Town are the Norris Rock Pool and Bloomsburg Municipal Authority.

2) Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: *governmental, proprietary, or fiduciary*.

- ***Governmental Funds*** are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains a number of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances (deficit) for the General, Street Lighting, Fire, Recycling, Library, Capital Projects, Day Care, Debt Service, Commercial Loan Repayment, Liquid Fuels, Airport, CDBG Entitlement Program, CDBG Disaster Recovery, CDBG Program Income, Home Program, Police Pension, Town Employee Pension, David Stroup, George S. Robbins and Bruce Hartman Funds.

The Town of Bloomsburg adopts an annual appropriated budget for the funds. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budgetary requirement.

- **Proprietary funds** represent charges from customers for provided services, whether to outside customers or to other units of government; these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the statement of net position and the statement of activities. Proprietary funds are comprised of two types: 1.) *enterprise funds* and 2.) *internal service funds*. The Town utilizes enterprise funds for its Recycling Center. Internal service funds are an accounting device use to accumulate and allocate costs/internal amounts to the Town's various functions. Any internal service funds are reported within governmental activities in the government-wide financial statements as they predominantly benefit governmental rather than business-type functions.
- **Fiduciary funds** are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs (e.g. pension funds). The accounting used for fiduciary funds is similar to proprietary funds.

3) Notes to the Financial Statements/Other Information

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. This information can be found at the end of the financials in this report.

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town of Bloomsburg's progress in funding its obligation to provide pension and other post-employment benefits to its employees.

The combining statements of non-major governmental funds are presented immediately following the required supplementary information.

Results of Operations - Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets exceeded liabilities by \$13,837,452 as of the close of the most recent fiscal year for governmental activities and business-type activities.

Total net position	\$ 13,837,452	\$ 14,207,296	\$ (369,844)	(2.60)

The largest portion of the Town's net position reflects its investments in capital assets of \$17.6 million. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. It should be noted that the resources needed to repay debt associated with capital assets must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the Town's net position (\$1.2 million) represents resources that are subject to external restrictions on how they may be used. Below is a four-year comparison of the net positions for the Town.

	December 31,			
	2018	2017	2016	2015
Governmental Activities	\$ 13,087,779	\$ 13,388,785	\$ 12,602,959	\$ 13,609,928

Total net position	\$ 13,837,452	\$ 14,207,296	\$ 13,559,578	\$ 15,020,650

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined fund balances of \$2.6 million, an increase of approximately \$100 thousand in comparison with the prior year.

Shown below is the activity in the General Fund for each department.

Excess (deficiency) of revenues over expenditures	<u>\$ (61,250)</u>	<u>\$ 78,086</u>	<u>\$ 139,336</u>

Of the \$78,086, \$48,092 is dedicated for restricted purposes. The largest item relating to this surplus was the real estate transfer tax line item that brought in \$64,505 more than budgeted. The Airport Furnishing Grant relative to the fuel pump using local share monies was not advanced in 2018.

Proprietary Funds

The Town of Bloomsburg's proprietary fund continues to decrease. The rising competition for recyclable goods is a factor. The decreasing numbers of private industry drop-offs also contributes. In an effort to minimize costs, the Recycling Center's recycling fees went in house in 2016. With joint efforts from the Finance and Recycling Departments and the Town's financial institution, this project was accomplished. The switch allowed the Recycling Center to see an immediate cost savings. Since July 2013, the Town partnered with Bloomsburg University to pick up recyclable collections. Management remains confident in its ability to generate collection growth in a highly competitive environment, but also understands that some competitors have greater financial resources and could use these resources to take measures which could adversely affect the Town's competitive position. In the upcoming calendar year, businesses will be faced with a collection fee to cover the rising cost of doing business

Original Budget vs. Final Budget

There were no significant differences in budgets made during the 2018 year.

Request for Information

This financial report is designed to provide a general overview of the Town of Bloomsburg's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to The Town of Bloomsburg, 301 East Second Street, Bloomsburg PA 17815.

**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
December 31, 2018**

Total fund balances - governmental funds	\$ 2,639,335
---	---------------------

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources; therefore, they are not reported as assets in the governmental funds. Total cost is \$29,556,438, and accumulated depreciation is \$10,893,295. 18,663,143

Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures; therefore, they are deferred inflow of resources in the governmental funds. 157,155

Future rents receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures; therefore, they are deferred inflows of resources in the governmental funds. 32,997

Deferred inflows and outflows of resources related to pensions are applicable to future periods; therefore, they are not reported within the governmental funds.

Deferred inflows and outflows related to pensions are as follows:

Deferred outflows - see footnotes for details	1,024,436
Deferred inflows - see footnotes for details	(307,034)

Deferred inflows of resources related to OPEB are applicable to future periods; therefore, they are not reported within the governmental funds.

Deferred inflows related to OPEB are as follows:

Deferred inflows - see footnotes for details	(222,384)
--	-----------

Long-term liabilities are not due and payable in the current period; therefore, they are not reported as liabilities in the governmental funds.

Long-term liabilities at year-end consist of:

General obligation notes	(1,701,471)
Capital lease-purchase obligation	(39,417)
Net pension liabilities	(3,938,514)
OPEB liabilities	(3,220,467)

REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES (DEFICIT)
TO THE STATEMENT OF ACTIVITIES
Year Ended December 31, 2018**

Net changes in fund balances (deficit) - governmental funds	\$ 99,104
<p>Amounts reported for governmental activities in the Statement of Activities are different because:</p>	
<p>Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the costs of those assets are allocated as depreciation expense over the assets' useful lives. This is the amount by which capital outlays exceed dispositions and depreciation expense.</p>	
Capital outlays	1,648,805
Less net book value of disposed assets	(8,445)
Less depreciation expense	<u>(889,845)</u>
	750,515
<p>Because some property taxes will not be collected for several months after the Town's calendar year ends, they are not considered "available" revenues in the governmental funds. Deferred inflows of resources increased by this amount.</p>	
	11,924
<p>Changes in net pension liabilities and deferred outflows and inflows related to pensions do not require the use of current financial resources; therefore, these changes are not reported as expenditures in the governmental funds but are reported as expenses in the Statement of Activities.</p>

<p>Changes in OPEB liabilities and deferred outflows and inflows related to OPEB do not require the use of current financial resources; therefore, these changes are not reported as expenditures in the governmental funds but are reported as expenses in the Statement of Activities.</p>	
	(19,117)
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal consumes current financial resources. Neither transaction has any effect on net position. Also, governmental funds report the effects of issuance costs, premiums, discounts, and similar items when debt is issued. These amounts are deferred and amortized in the Statement of Activities. Following are the effects of differences in the treatment of long-term debt and related items.</p>

TOWN OF BLOOMSBURG

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

Nature of Activities:

The Town of Bloomsburg, Columbia County, Pennsylvania (the "Town") was established on March 4, 1870, by a special act of the Pennsylvania Legislature. The Town is the only incorporated town in the Commonwealth of Pennsylvania. Corporate powers of the Town are vested in a Mayor and a six-member Council. The Town provides the following services: general; public safety (police and fire); health and human; sanitation; highways, roads and streets; culture and recreation; conservation and development; recycling; and parking.

The accompanying financial statements present the government and its component units, entities for which the Town is considered to be financially accountable or which are significant to the operations of the Town. The discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the Town.

Discretely Presented Component Units:

Norris Rock Pool

The Bloomsburg Swimming Pool was constructed in 1955. In 1989, the pool was renamed the Norris Rock Memorial Swimming Pool in memory of Norris Rock who had managed the pool free of charge for many years. The assets associated with the pool are held by the Town. At the end of calendar year 2015 Council approved dissolving the investment fund in order to place it into the main operational account for the pool.

Municipal Authority of the Town of Bloomsburg

The Municipal Authority of the Town of Bloomsburg (Authority) was incorporated on October 7, 1950, under the Municipality Authorities Act of 1945, P.L. 382, as amended, pursuant to an ordinance of the Town Council of the Town of Bloomsburg, Columbia County, Pennsylvania.

The Authority is an operating authority responsible for acquiring, holding, constructing, improving, owning and leasing sewer, sewer systems or parts thereof.

The Board of the Authority consists of five members who are appointed for a five-year term by Bloomsburg Town Council with one member's term expiring each year.

TOWN OF BLOOMSBURG

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

Government-Wide and Fund Financial Statements:

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenue are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary fund, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual funds and major individual enterprise fund are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation:

The Town complies with accounting principles generally accepted in the United States of America (GAAP) and applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net position (assets plus deferred outflows of resources less liabilities less deferred inflows of resources) are used as a practical measure of economic resources, and the operating statement includes all transactions and events that increased or decreased net position. Depreciation is charged as an expense against current operations and accumulated depreciation is reported in the Statement of Net Position.

TOWN OF BLOOMSBURG

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued):

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Day Care Debt Service Fund, accounts for the 2010 General Obligation Notes issued in the amount of \$223,805 in order to finance the construction of the Columbia Day Care Center. This note was paid in full during 2018.

The General Debt Service Fund, accounts for the 2010, 2014 and 2016 issuances of General Obligation Notes in the amount of \$1,248,654, \$400,000 and \$1,500,000, respectively. The Notes provide funds for the construction and acquisition of certain capital assets within the Town. The General Obligation Note for 2010 was paid in full during 2018.

The Airport Expansion Fund accounts for grants received from the FAA and the Commonwealth of Pennsylvania for expansion of the Town's municipal airport. The Town also agrees to forever keep and maintain the airport as a public airport. Failure to do so would subject the Town to immediate repayment of the grant contributions.

The UDAG Repayment Fund accounts for funds received from the repayment of the Community Development Fund UDAG Grant. As the UDAG Grant Loan is repaid to the Town, the funds are made available for activities eligible under Title I of the Housing and Community Development Act of 1974.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued):

The government reports the following major proprietary fund:

The Recycling Fund accounts for the financing of services to the general public where all or most of the costs involved are paid in the form of charges to the users of such services.

Proprietary funds distinguish operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the Recycling Fund is the sale of recycled materials and charges for recycling services. The principal operating revenue of the Norris Rock Pool is charges for services. Operating expenses include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as non-operating revenue or expenses.

Additionally, the government reports the following fund types:

The Pension Trust Funds account for the activities of the Municipal Employees and Police Pension Plans. These Trust Funds accumulate resources for pension benefit payments to qualified employees.

The David Stroup, George S. Robbins, and Bruce Hartman Funds, non-expendable trust funds, account for funds whose principal must remain intact and invested with the resultant income to be used for activities as outlined in the Trust Agreements. The Trust Agreements stipulate that income derived from the investments of principal shall be used to provide aid and assistance to the needy.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets and Budgetary Accounting: Town Council adopts budgets for certain governmental funds on the modified accrual basis. The Town also adopts a budget for the enterprise fund on the accrual basis. Annual budgets are adopted for the general, enterprise and debt service funds. Town Council also adopts a budget for the State Liquid Fuels Highway Aid Fund, Library, Fire and Street Lighting Funds, which are in the Special Revenue Funds. All annual appropriations lapse at the end of each year and must be re-appropriated.

Cash Equivalents: For purposes of the Statement of Cash Flows, the Town considers time deposits, certificates of deposit, and all highly-liquid debt instruments with original maturities of three months or less to be cash equivalents.

Investments: Investments are recorded at fair value or at amortized cost, depending on the investment type, consistent with generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued):

Receivables and Payables: Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the year is referred to as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Prepaid Expenses: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items (consumption method) in both the government-wide and fund financial statements.

Capital Assets and Depreciation: Capital assets, including property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets may be purchased or constructed and are recorded at cost or estimated historical cost. Estimated historical costs are based either on similar assets of the same era or on deflated current values. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are not capitalized.

Long-Term Liabilities: In the government-wide financial statements, and proprietary fund types presented in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activities columns in the Statement of Net Position. In the fund financial statements, governmental fund types, the face amount of the debt issued is reported as other financing sources.

Compensated Absences: Town employees earn vacation annually, January 1; based upon the number of years employed. An employee is not eligible for vacation until they have completed one year of continuous service with the Town. Employees earn varying amounts of sick leave each month based off years of service. Employees receive no benefit or pay for unused sick leave upon termination. At the end of the year, any unused vacation up to 40 hours is paid to the employee. Accumulated vacation is paid upon termination. Since substantially all accrued vacation will be paid within one year, the Town has reflected the accrual as a liability in the applicable funds.

Deferred Inflows of Resources - Unearned Revenues: The Town recognizes the property tax revenues when they become available. Available includes those property tax receivables expected to be collected within sixty days after year-end. Those property tax receivables expected to be collected after sixty days after year-end are shown as deferred inflows of resources in the fund financial statements. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

Note 1. Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued):

Fund Balance:

The Town's fund balance classifications are defined and described as follows:

Nonspendable: Represents fund balance amounts that cannot be spent because they are not in a spendable form or are contractually required to be maintained intact.

Restricted: Represents fund balance amounts that are constrained for a specific purpose through restrictions of external parties, through constitutional provisions, or by enabling legislation.

Committed: Represents fund balance amounts that can only be used for specific purposes pursuant to the constraints imposed by formal action of the Council, the Town's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Council removes the constraints or changes the specified purpose through the same action it used to commit the funds.

Assigned: Represents fund balance amounts that are constrained by the government's intent to be used for a specific purpose but are neither restricted nor committed. Through Town policy, the Council has delegated the authority to express intent to the Town Administrator.

Unassigned: Represents fund balance amounts that have not been restricted, committed, or assigned to specific purposes within the general fund.

Other

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Implementation of New Accounting Principle: In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which amends GASB Statement No. 45. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other post-employment benefits or OPEB). Implementation of GASB No. 75 requires the Town to recognize the total OPEB liability and deferred inflows and outflows of resources of the Town's Police Single Employer Plan and the Municipal Employees' Single Employer Plan as of January 1, 2018. Additional disclosures related to other post-employment benefits for the Town of Bloomsburg's plans are in Notes 14 and 15.

Subsequent Events: In preparing these financial statements, the Town has evaluated events and transactions for potential recognition or disclosure through April 12, 2019, the date the financial statements were available to be issued.

TOWN OF BLOOMSBURG

NOTES TO FINANCIAL STATEMENTS

Note 2. Legal Compliance - Budgets

The Town utilizes the following procedures to establish the budgetary data reflected in the financial statements:

1. During November, the Town makes available to the public its proposed operating budget for all funds. The operating budget includes proposed expenditures, revenue and arrangements.
2. Prior to December 31, the Town holds a public hearing to obtain taxpayer comments after which the budget is legally adopted through passage of an ordinance.
3. All budget revisions require the approval of Town Council.

Formal budgetary integration is utilized as a management control device during the year for certain Governmental Funds.

Note 3. Deposits and Investments

Statutes authorize the Town to invest in the following:

- U. S. Treasury Bills
- Short-term obligations of the U. S. Government and Federal agencies
- Insured savings and checking accounts and certificates of deposit in banks, savings and loan associations and credit unions
- General obligation bonds of the Federal Government, the Commonwealth of Pennsylvania or any state agency or of any Pennsylvania political subdivision
- Shares of investment companies whose investments are restricted to the above categories

The deposit and investment policies of the Town adhere to state statutes and prudent business practices. There were no deposit or investment transactions during the year that violated either state statutes or Town policies.

Deposits: Custodial-Credit Risk

Custodial-credit risk is the risk that in the event of a bank failure, the Town's deposits and/or investments may not be returned to it. A summary of the Town's deposits at December 31, 2018, are shown below:

	Carrying Amount	Bank Balance	Financial Institution
Insured (FDIC)	\$ 250,000	\$ 250,000	First Columbia Bank & Trust
Uninsured, collateralized in accordance with Act 72	3,352,618	3,877,323	First Columbia Bank & Trust
	<u>\$ 3,602,618</u>	<u>\$ 4,127,323</u>	

TOWN OF BLOOMSBURG

NOTES TO FINANCIAL STATEMENTS

Note 3. Deposits and Investments (Continued)

Deposits: Custodial-Credit Risk (Continued):

All deposits of the Town are either insured or collateralized. All deposits that exceed the Federal depository insurance coverage level are collateralized under the Pooling Method. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities maintained in conformity with Act 72 of 1971. Act 72 of 1971 is an act standardizing the procedures for pledges of assets to secure deposits of public funds with banking institutions pursuant to other laws; establishing a standard rule for the types, amounts and valuations of assets eligible to be used as collateral for deposits of public funds; permitting assets to be pledged against deposits on a pooled basis; and authorizing the appointment of custodians to act as pledgers of the assets. The Town has no policy regarding custodial credit risk for deposits.

Investments

The Town categorizes its fair value measures within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. As of December 31, 2018, the Town does not hold any investments in Governmental or Business-Type Activities, which are subject to the fair value measurements and valuation input classifications.

Weighted-Average Maturity

The weighted-average maturity (WAM) method expresses investment time horizons - the time when investments become due and payable - in years or months, weighted to reflect the dollar size of individual investments within an investment type. In this illustration, WAMs are computed for each investment type. The portfolio's WAM is derived by dollar-weighting the WAM for each investment type.

Interest-Rate Risk

The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair-value losses arising from increasing interest rates.

Concentrations of Credit Risk

The Town places no limit on the amounts invested in any one issuer.

The proprietary fund receivable balance generally consists of customer charges at December 31, 2018.

Note 5. Property Taxes

Property taxes are levied on March 1 for the tax year. Taxes are payable at a 2% discount if paid before May 1 and at a 10% penalty if paid after the due date of June 30. Outstanding real estate taxes are turned over to a delinquent tax collector on the first of January of each year. After proper notification is made to a property owner, a lien is filed on or about May 1 and must remain in effect for a period of two years before a tax sale may occur. Taxes are recorded as revenue by the Town when received from the tax collector, and proper accruals are recorded at year-end. The Town has not established an allowance for uncollectible taxes since experience has demonstrated that substantially all taxes are ultimately collectible. The total assessed valuation for the 2018 taxes is \$124,215,701. The Town is permitted by law to levy taxes up to \$3.00 per \$100 of assessed valuation for general governmental purposes. The General Fund tax rate for the year ended December 31, 2018, was 11.389 mills.

In addition, the Town is permitted to levy the following real estate taxes per \$100 of assessed valuation:

Purpose	Maximum Levy Allowable Under the Law
Debt service	An amount sufficient to meet debt service requirements
Persons, retirement Pensions	\$.05
Shade trees	\$.01
Street lighting	\$.80
Support of fire companies	\$.30

Note 6. Future Rents Receivable

On April 1, 1988, the Town entered into an agreement to lease a day care facility to Columbia Day Care Program, Inc., ("Day Care") for a term of 50 years. The facility was financed substantially by issuance, through the U. S. Farmers Home Administration ("FmHA"), of the Town's Series A and Series B 1988 General Obligation Notes. During 2010, these notes were part of the Town's debt refinancing, of the 2010 General Obligation Note, which was paid in full during 2018. (See Note 10).

Under the terms of the lease with the Day Care, the Town is to receive monthly rentals based upon the following formula:

During the first forty-eight months, rents will equal the Town's monthly debt service payment to FmHA on the Town's 1988 Series General Obligation Notes.

During months 49 to 360, monthly rents will equal the sum of:

- (a) A portion of the Town's monthly debt service payment to First Columbia Bank & Trust on the Town's Sinking Fund 2010 General Obligation Note.
- (b) An amount equal to $1/312$ of the sum of the cost of the site and the Town's proceeds used in the construction of improvements.
- (c) An amount equal to the assessed value of the leased premises multiplied by the Town's then current annual real estate millage rate divided by twelve.

The amounts in parts (b) and (c) of the above formula may not exceed \$668 per month.

During months 361 to 600, monthly rent will equal \$668 multiplied by the Consumer Price Index compounded annually since April 1988.

The Town has classified this lease as a direct financing lease and, accordingly, has capitalized the future rents receivable and has recorded deferred revenue to account for the related unearned rents. The deferred revenues are being amortized using the straight-line method over the 50 year life of the lease.

NOTES TO FINANCIAL STATEMENTS

Note 7. Property, Plant and Equipment

Capital assets, which include property, plant and equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated fair market values at dates of donation.

The costs of normal maintenance and repairs that do not add to the values of assets or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction phases of business-type capital assets is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings/Building Improvements	40
Public Domain Infrastructure	50
Vehicles and Equipment	3-10
Land Improvements/Other Improvements	15-40

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in applicable governmental activities.

General Obligation Notes - Series of 2010 - During 2010, the Town issued \$1,248,654 to refinance four General Obligation Notes. The newly issued General Obligation Note bore interest at 4.09% and required 96 monthly payments of \$15,272, consisting of principal and interest, beginning November 30, 2010. The note was refinanced in May 2014, which lowered the interest rate from 4.09% to 2.23% per annum through the period ending October 30, 2018. The note was paid in full in 2018.

General Obligation Notes - Series A of 2014 - In May 2014, the Town issued General Obligation Notes - Series A of 2014, in the principal amount of \$350,000. The proceeds of the note were used to purchase a fire engine. The note bears interest at 2.41% and requires 82 monthly payments of \$4,538, consisting of principal and interest, beginning July 1, 2014. This note's maturity date is June 2021.

General Obligation Notes - Series B of 2014 - In December 2014, the Town issued General Obligation Notes - Series B of 2014, in the principal amount of \$400,000. The proceeds of the note were used to fund several construction projects and equipment purchases. The note bears interest at 2.41% and requires 84 monthly payments of \$5,186, consisting of principal and interest, beginning January 1, 2015. This note's maturity date is December 2021.

General Obligation Notes - Series of 2016 - In March 2016, the Town issued General Obligation Notes - Series of 2016, a Commercial Draw Term Note, in the amount of \$1,500,000. The proceeds of the note were used to fund several construction projects and equipment purchases. The note bears interest at 3.02% and requires payments of interest only on the principal amounts advanced for the first 9 months. Following the interest only period, bi-weekly payments consisting of principal and interest, will be made over an eighteen-year period. This note's maturity date is November 17, 2034.

Note 12. Police Pension Plan

Plan Description

Plan Administration

The Retirement Board administers the Town of Bloomsburg Police Pension Plan (Police Pension Plan) - a single-employer defined benefit pension plan that covers all full-time Town of Bloomsburg police officers.

Plan Membership

For the 2018 measurement period, Police Pension Plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	11
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	18
	<hr/>
	29
	<hr/> <hr/>

Benefits Provided

The Police Pension Plan provides retirement, disability, and death benefits. Retirement benefits for plan members are calculated as 50% of the member's average monthly compensation during his final 36 months of employment plus a Service Increment Benefit if applicable. Plan members with 25 years of service are eligible to retire at age 50 (55 if hired after 12/31/14). All plan members are eligible for disability benefits if termination of employment as the result of a service-connected disablement. Disability retirement benefits are equal to 25% of the member's average monthly compensation during his final 36 months of employment plus an additional 2% for each year of service in excess of 15 years. Death benefits for a terminated vested member who is not killed-in-service, his spouse will receive 50% of the monthly benefit the member was scheduled to receive. Death benefits for a member who is killed-in-service, his spouse will receive a monthly benefit payable for life equal to 100% of the member's base monthly pay.

Cost-of-living adjustments to each member's retirement benefit are given each January 1 following retirement. The adjustment is a percentage of the change in the Consumer Price Index. Maximum cost-of-living is 30% of initial retirement benefit.

Contributions

An actuarially determined contribution is recommended by the plan actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance an unfunded accrued liability. Custodial-Credit Risk: Custodial-credit risk is the risk that in the event of a bank failure, the Police Pension Plan deposits and/or investments may not be returned to it. At December 31, 2018, the Police Pension Plan had deposits with financial institutions with a carrying amount of \$223,949. Of the December 31, 2018, balance; \$223,949 was covered by federal depository insurance and -\$0- was covered by collateralized assets maintained in conformity with Act 72 of 1971.

Investments

Method used to value investments: Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Real estate assets are reported at fair value utilizing an income approach to valuation. By contract, an independent appraisal is obtained once every year to determine the fair market value of the real estate assets. The Police Pension Plan categorizes its fair value measures within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Investment policy: The Police Pension Plan's policy in regard to the allocation of invested assets is established and may be amended by the Board by a majority vote of its members. It is the policy of the Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation for the 2018 measurement period (see the discussion of the pension plan's investment policy) are summarized in the following table:

Investments (Continued)

The investment objective of the Police Pension Plan is to maintain a balanced portfolio comprised of various securities.

U.S. Government Agencies - The Police Pension Plan invests in Federal Home Loan Bank and Federal Farm Credit Bank bonds. The Federal Home Loan Bank bonds invest in securities to provide funds to financial institutions for home mortgage and community credit. The Federal Farm Credit Bank system is the funding arm for a network of five Farm Credit Banks and Associations. Credit is provided to farmers, ranchers, and producers of agriculture products as well as financial support to farm related businesses including power generation. These government bonds are rated AAA. The Municipal Employees Pension Plan does not currently hold any U.S. Government Agencies.

Municipal Bonds - The Police Pension Plan invests in one municipal bond issue from Trinity Area School District. The yield on this bond is 4.16% and it matures November 1, 2024.

Negotiable Certificates of Deposit - The Police Pension Plan invests in certificates of deposit through First Columbia Bank, which holds the certificates in a nominee account with a counterparty custodian for trading convenience. There are currently eight certificates of deposit held in the account as of December 31, 2018. The certificates are insured by the FDIC up to \$250,000. The values of the certificates in excess of the \$250,000 FDIC limit are secured by non-government municipal securities. These certificates are subject to custodial credit risk. As of December 31, 2018, there are no certificates that are in excess of \$250,000.

Income Mutual Funds - The Police Pension Plan invests in one Income Mutual Fund: Vanguard Short-Term Investment Grade Fund (Ticker: VFSUX). As of December 31, 2018, the Vanguard Short-Term Investment Grade Fund is rated 4 stars by Morningstar and is a short-term corporate-focused fund. Minimum guidelines require that a fund has to be in existence for at least 5 years, have a Morningstar rating of at least 3 stars and have fund manager of record for a minimum of 3 years.

Equity Mutual Funds - The Police Pension Plan has seven investments in Equity Mutual Funds. Three of the funds, Dodge & Cox Fund (Ticker: DODGX) (5 star), Federated Strategic Value Dividend Fund (Ticker: SVAIX) (2 star), and the Vanguard Windsor II Fund (Ticker: VWNFX) (3 star) represent the Large Cap Value Category, and Growth Fund of America (Ticker: GFAFX) (3 star) represents the Large Cap Growth Category. The Vanguard Small Cap Index (Ticker: NAESX) (4 star), Vanguard Mid Cap Index Fund (Ticker: VIMAX) (4 star) and the Dodge & Cox International Fund (Ticker: DODFX) (4 star) represent the Small, Mid and International sectors. Ratings were obtained through Morningstar as of December 31, 2018. Minimum guidelines require that a fund must be in existence for at least 5 years, have a Morningstar rating of at least 3 stars and a fund manager of record for a minimum of 3 years.

Common Stocks - These investments represent banking, business services, chemicals and allied products, communication, electronics, electric, gas, food, machinery, oil and gas extraction, transportation, and wholesale trade. Guidelines require that no one stock exceed 5% of the total portfolio. It is the goal of the Trustee to invest in high-grade blue-chip stocks that mirror the S&P 500.

Corporate Bonds - The Police Pension Plan is invested in twenty-six corporate bond issues. The investment policy statement, updated effective June 24, 2016, requires all fixed-income securities held in the portfolio shall have a Moody's and/or Standard & Poor's credit rating of no less than BBB. Guidelines require the exposure of the portfolio to any one issuer, other than securities of the U.S. Government or agencies, shall not exceed five (5%) percent of the market value of the portfolio of each account.

Interest-Rate Risk - The Police Pension Plan does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair-value losses arising from increasing interest rates.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Police Pension Plan will not be able to recover the value of its investments or collateral security that are in the possession of an outside party.

Credit Risk - The Police Pension Plan has an investment policy which limits investment choices to those with specific credit ratings.

Concentration Risk - The Police Pension Plan limits that no more than 5% of the total fund value can be invested in any one corporate bond or 5% in any one stock. The Pension Committee limits the equities to no more than 50% of the value of the funds. The percentages of the concentrations of the Police Pension Plan investments are documented on the table on page 41.

Rate of Return: For the year ended December 31, 2018, the annual money-weighted rate of return on Police Pension Plan investments, net of pension plan investment expense, was (3.35)%. 2022	146,716
2023	35,235
Thereafter	1,091
	<u>\$ 574,976</u>

Actuarial Assumptions: The total pension liability was determined by an actuarial valuation for the 2018 measurement period at January 1 and rolled-forward to December 31 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary Increases	5.0% (average including inflation)
Investment rate of return	7.5% (including inflation)

Mortality rates were based on the RP2000 with built in projection and Blue-Collar Adjustment.

The actuarial assumptions used in the valuation for the 2018 measurement period were based on past experience under the plan and reasonable future expectations which represent our best estimate of anticipated experience under the plan.

No ad hoc postemployment benefit changes were included in future liability.

Discount Rate: The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (i.e. no depletion date is projected to occur).

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Police Pension Plan, calculated using the discount rate of 7.5 percent, as well as what the Town’s net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)

Plan Description (Continued)

Benefits Provided

The Municipal Employees Pension Plan provides retirement, disability, and death benefits. Retirement benefits for plan members are calculated as 1.50 percent of the member's highest 3-year average salary times the member's years of service. Plan members with 15 years of service are eligible to retire at age 60. All plan members are eligible for disability benefits after 5 years of service if disabled while in service and unable to continue as a Town employee. Disability retirement benefits are equal to the accrued benefit at the time of disability, actuarially reduced and payable immediately. Death benefits for a member who dies with 5 years of service will receive a monthly pension payable for 120 months, equal in amount to 100% of the member's accrued benefits. A plan member who leaves with less than 5 years of service will receive a refund of his or her contributions, plus any accumulated interest.

On an ad hoc basis, cost-of-living adjustments to each member's retirement benefit may be given. The adjustment, should the Town elect to give one, is a percentage of the change in the Consumer Price Index.

Contributions

An actuarially determined contribution is recommended by the plan actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance an unfunded accrued liability. For the 2018 measurement period, the active member contribution rate was 0.0 percent of annual pay, and the Town average contribution rate was 15.06 percent of annual payroll.

Plan Description and Benefits

Effective January 1, 2018, the Town adheres to Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, for certain postemployment healthcare benefits and life insurance benefits provided by the Town. The Town's healthcare plan related to police officers is a single-employer defined benefit healthcare plan. The plan provides health benefits, including prescription drug coverage, to eligible retirees and their spouses. The Town does not maintain or accumulate any assets within a trust in accordance with paragraph 4 of GASB Statement No. 75. The plan does not issue any financial report and is not included in the report of any public employee retirement system or any other entity.

Eligibility

Police officers are eligible for lifetime retiree health benefits once they attain age 50 with 25 years of service. Employees may elect to cover their spouses at retirement. Spousal coverage continues for lifetime until his/her death. The same contribution requirements outlined for employees apply to spouses (or surviving spouses). The Town pays the full cost of coverage for all employees hired prior to January 1, 1993 who have all retired. For employees hired on/after January 1, 1993 and retired on/after age 65, the Town provides a stipend for purchase of health coverage elsewhere. The annual stipend provided to retirees is \$3,600 in 2017 and 2018. There is no subsidy provided by the Town for employees hired on/after January 1, 1993 who retire prior to age 65, however, they are eligible for the stipend benefit as well when they become eligible for Medicare upon proof of continuous health care coverage between the date of retirement and Medicare eligibility. In addition, upon retirement, police officers are eligible for a life insurance policy in the amount of \$10,000 with premiums paid by the Town.

Funding Policy:

The plan is insured, and premiums are updated annually based on several factors determined by the plan underwriters. The Town funds payment of the full premium for all police officers and eligible retired officers.

Employees Covered by Benefit Terms:

For the year ended December 31, 2018, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	13
Inactive employees entitled to but not yet receiving benefit payments	-

Implementation of GASB No. 75 required the Town to recognize a total OPEB liability, and deferred outflows and inflows of resources for its Municipal Employees OPEB plan. This resulted in a total decrease in the Town’s net position of \$457,356 as of January 1, 2018. Of the total decrease, \$349,793 is attributable to Governmental Activities, and \$107,563 to the Town’s Business-Type Activity.

TOWN OF BLOOMSBURG

NOTES TO FINANCIAL STATEMENTS

Note 16. Related Party Transactions

During 2018, the Town recognized revenues and expenses of \$3,357 and \$692, respectively, from the Municipal Authority of the Town of Bloomsburg for sewer line maintenance, sale of gasoline and diesel, cleaning services, miscellaneous revenues, and expenditures for sewer fees.

Note 17. Unexpended Grant Balance

The Town participates in a UDAG Grant Program that provided a loan to aid a local industry in updating machinery and equipment. Under the terms of the Grant, as the loan is repaid to the Town, the repaid funds are available to be reprogrammed into the Town, so long as the reprogrammed activities are eligible under Title I of the Housing and Community Development Act of 1974.

Note 18. Post-Retirement Health Care Benefits

In addition to providing pension benefits, the Town provides certain healthcare benefits for retired employees. Substantially all of the Town's employees may become eligible for these benefits if they reach normal retirement age while working for the Town. The costs of retiree healthcare benefits are expensed as paid. For the year ended December 31, 2018, those costs approximated \$154,738. Approximately \$4,400 was reimbursed to the Town by its employees.

Note 19. Deferred Compensation Plan

The Town has adopted the Pennsylvania State Association of Boroughs Deferred Compensation Plan and the 457 Deferred Compensation Plan for employees of state and local governments. Both plans have been created in accordance with Internal Revenue Code Section 457(g). The Plan, available to all Town employees, permits them to defer a portion of their salaries until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are solely the property and rights of the participants and beneficiaries under the Plan. Participants' rights under the plans are equal to an amount equal to the fair market value of the deferred account for each participant.

Note 20. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets and errors or omissions. Significant losses are covered by commercial insurance for all major programs. For insured programs, there have been no significant reductions in settlement coverage. Settlement amounts have not exceeded insurance coverage for the current or three prior years.

TOWN OF BLOOMSBURG

NOTES TO FINANCIAL STATEMENTS

Note 21. Non-Major Funds

The following funds are reported as non-major governmental funds:

Special Revenue Funds

The State Liquid Fuels Highway Aid Fund provides for the accountability for grants received from the State Motor License Fund. Costs paid by this fund must be related to the construction, reconstruction, repair and maintenance of the Town's streets, roads and bridges.

The Community Development Block Grant (CDBG) Program Income Fund, a special revenue fund, accounts for the income derived from rehabilitation loans.

The CDBG Disaster Recovery Fund, a special revenue fund, accounts for grants received from the Federal government under the Community Development Block Grant Program for improvements of flood and drainage facilities and sidewalks.

The CDBG Entitlement Program Fund accounts for grants received from the Federal government under the Community Development Block Grant Program for various improvements to the Town.

The Home Program Fund, a special revenue fund, accounts for grants received from the Federal government under the Community Development Block Grant Program for rehabilitation of homes in the Town.

The Fire Fund, a special revenue fund, accounts for additional monies collected from Fire Fund millage to be used for future fire purchases or payments. Additionally, this fund accounts for the 2014 issuance of a General Obligation Note in the amount of \$350,000, which was used towards the purchase of a fire truck in 2014.

The Library Fund accounts for the receipt of tax monies from a special millage designated for support of the Bloomsburg Public Library.

The Street Lighting Fund accounts for the receipt of tax monies from a special millage designated for support of the Town's street lights.

Capital Projects Funds

The Capital Projects Fund was established to account for new construction projects contemplated by the Town. Formula budgets are not prepared for the various projects.

Note 22. Contingencies

The Town is exposed to various liability claims and potential litigation arising from normal operations. The Town maintains customary, business-insurance policies designed to limit the financial impacts of such matters.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Members of Town Council
Town of Bloomsburg
Bloomsburg, Pennsylvania

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activity, the discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Bloomsburg as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Town of Bloomsburg's basic financial statements and have issued our report thereon dated April 12, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Bloomsburg's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Bloomsburg's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Bloomsburg's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

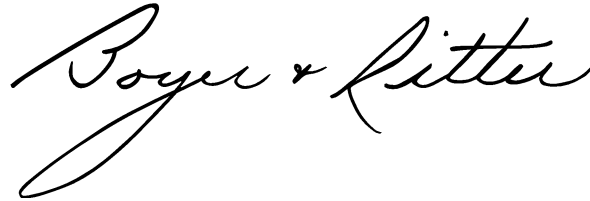

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Bloomsburg's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Members of Town Council
Town of Bloomsburg
Bloomsburg, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited the Town of Bloomsburg's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Town of Bloomsburg's major programs for the year ended December 31, 2018. The Town of Bloomsburg's major Federal program is identified in the Summary of Auditor's Results Section in the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with Federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Town of Bloomsburg's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the Town of Bloomsburg's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of the Town of Bloomsburg's compliance.

Opinion on Each Major Federal Program

In our opinion, the Town of Bloomsburg complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended December 31, 2018.

Report on Internal Control over Compliance

Management of the Town of Bloomsburg is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Town of Bloomsburg's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Bloomsburg's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the Federal-award activity of the Town under programs of the Federal government for the year ended December 31, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Town, it is not intended to and does not present the financial position, changes in net position or cash flows of the Town.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance wherein certain types of expenditures are not allowable or are limited as to reimbursement. Revenue is recognized when earned, and expenses are recognized when incurred. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

Note 3. Indirect Cost Rate

The Town has not elected to use the 10 percent, de minimis, indirect-cost rate allowed under the Uniform Guidance.
